The Directors are pleased to announce that the JMMB Group Limited posted a net profit of J\$4.02 billion and earnings per share of J\$1.97 for the nine months ended 31 December 2020.

GROUP CEO'S COMMENTARY

Pivoting in the Pandemic

JMMB Group (the Group) continues to perform credibly within the context of the COVID-19 pandemic having recorded quarter over quarter growth and profitability for the financial year thus far. The Group customized COVID strategy, which focused on the protection of client goals, business continuity and acutely managing capital, liquidity and expenses, has yielded success.

Our revenue diversification strategy remains successful, as our banking business line continues to show tremendous growth with loan portfolio and customer deposits year to date growth of 17% and 16% respectively.

We have recovered from the disruptions experienced in our online banking and core banking platforms which commenced in the second quarter. We have since then managed to achieve stability with our major IT systems and have put in place several client experience and systems monitoring mechanisms.

Outlook- Building on Strong Performance, Growth in the Future

With this strong year to date performance in place, the Group continues to be nimble in executing its response to the pandemic. We will continue to pursue growth opportunities across all our segments, as well as explore opportunities for inorganic growth. The final quarter of the financial year will thus see the Group undertaking several strategic initiatives to strengthen and innovate our digital access channels that will improve our clients' experience and produce efficiencies for the Group over the medium term.

Nine Months Highlights

Nine-month period ended 31 December 2020

(Expressed in Jamaican dollars unless otherwise indicated)

GROUP FINANCIAL PERFORMANCE

Net Operating Revenue

The JMMB Group posted net operating revenue of J\$16.54 billion for the nine months ended December 31, 2020. While this represented a 5% decline when compared to the prior period, the operating environment was markedly different given the pandemic. In the prior period, market sentiment was bullish and we successfully identified and capitalized on trading activities. Nevertheless, our clients continued to demonstrate confidence in the value of products and services which was evidenced by strong growth in the loan and investment portfolios. This resulted in an 8% growth in net interest income which moved from J\$7.02 billion in the prior period to J\$7.58 billion in the period under review.

Fees and commission income was 3% lower at J\$2.36 billion as lower business activity was partially offset by significant growth in managed funds and collective investment schemes across the Group.

While our trading lines exceeded expectation, gains were below the prior year as bond and equity trading gains was J\$4.94 billion, while FX trading gains was J\$1.57 billion.

Segment Contribution

The table below shows the contribution to net operating revenue by segments.

Net Operating Revenue	J\$'000	Contribution (%)
Financial & Related Services	9,751,659	59%
Banking & Related Services	6,558,546	40%
Other	233,953	1%
Total	16,544,159	100%

The Banking & Related Services segment contributed J\$6.56 billion or 40% of net operating revenue. This represented a 10% increase when compared to the prior period and was largely on account of strong growth in the loan book which translated to increased net interest income. On the contrary, Financial and Related Services contributed J\$9.75 billion and declined by 14% as a consequence of reduced trading activities.

Operating Efficiency

Operating expenses were J\$547.5 million or 5% lower than the prior period at J\$10.66 billion. Given reduced business activity, we implemented a cost containment program while prioritizing our efficiency related projects. The Group will continue to focus on extracting operational efficiency from all entities through the launch of its standardization and process improvements project.

Interest in Associated Company

For the quarter ended 31 December 2020, the Group has not recorded any share of profits from its associated company Sagicor Financial Company Limited (SFC). SFC has opted to publish its audited results for the year ended 31 December 2020, utilising 90 day provision under the Toronto Stock Exchange (TSX), hence the results for the quarter was not available. The Group will therefore, reflect any earnings from SFC in its fourth quarter ended 31 March 2021.

Nine Months Highlights

Nine-month period ended 31 December 2020

(Expressed in Jamaican dollars unless otherwise indicated)

GROUP FINANCIAL POSITION

Total Assets

At the end of the reporting period, the JMMB Group's asset base totalled J\$489.24 billion, up J\$89.02 billion or 22% relative to the start of the financial year. This was mainly on account of a larger loan and investment portfolio as well as a larger liquidity buffer. Investment portfolio and loans and notes receivable grew by 30% and 17% to J\$257.26 billion and J\$115.92 billion, respectively. The credit quality of the loan portfolio continued to be comparable to international standards. We also implemented enhanced monitoring to mitigate against possible deterioration in credit quality.

Growth in the asset base over the nine-month period was funded by increases in customer deposits and repos. Customer deposits increased by J\$16.80 billion or 16% to J\$120.98 billion, while repos grew by J\$45.89 billion or 26% to J\$225.48 billion.

Capital

Company	Regulatory Measure	Minimum Requirement	31-Dec-20
Jamaica Money Market Brokers Limited	Regulatory capital to risk weighted assets ratio	10%	15.98%
JMMB Bank (Ja) Limited	Regulatory capital to risk weighted assets ratio	10%	12.05%
JMMB Bank (T&T) Limited	Regulatory capital to risk weighted assets ratio	10%	14.86%
JMMB Securities Limited	Net free capital	J\$142 million	J\$313 million
JMMB Puesto de Bolsa, S.A.	Regulatory capital to risk weighted assets ratio	15.50%	76%

Over the nine-month period, shareholders' equity increased by 48% to J\$61.09 billion. This was on account of increased profitability as well as a rebound in emerging market bond prices which resulted in positive movement in investment revaluation reserve. Thus, the Group continued to be adequately capitalized and all individually regulated companies within

the Group continued to exceed their regulatory capital requirements. The performance of the major subsidiaries is shown in the table above.

Off-Balance Sheet Funds under Management

In alignment with the Group's strategy to provide complete, customized financial solutions for each client, we experienced growth in our off-balance sheet products which include pension funds, unit trusts and money market funds. The total invested in off-balance sheet products as at the end of December 2020 stood at J\$152.1 billion compared to J\$147.9 billion as at the end of the prior period.

The JMMB Group in the Community

For the third quarter, the JMMB Group continued to establish genuine relationships with the wider society, in which it operates, in keeping with its commitment to help others to realize their greatness. As such, the company remains actively involved in nation-building and the sustainability of communities, by supporting entrepreneurial and educational initiatives, transformational projects and community outreach efforts.

Nine Months Highlights

Nine-month period ended 31 December 2020

(Expressed in Jamaican dollars unless otherwise indicated)

The JMMB Joan Duncan Foundation in **Jamaica**, focused primarily on nation-building initiatives, educational development, transformational training and youth entrepreneurial programmes. The Foundation donated J\$10M to the 'One Laptop or Tablet per Child' initiative, which was spearheaded by the Ministry of Education and PSOJ. The initiative supports inclusivity in the education sector by providing needy children with equitable access to information and communication technology as well as the requisite supporting tools for online learning. Further, the Foundation continued to provide financial support to the Child Resiliency Programme.

Like many other organizations, the Foundation pivoted its approach by incorporating online Conversations for Greatness sessions. Thus far, over 9000 individuals have benefitted from this transformational initiative, including 89 schools and 142 organizations, such as charities, non-profit, governmental agencies and civic groups. For beneficiaries who have completed the programme, there has been a reduction in absenteeism, improvement in academic performance, less disruptive behaviour and greater synergies among the teachers and administrators. Other beneficiaries have praised the programme for how it has shifted their mindset and improved their interpersonal skills.

In support of youth entrepreneurship, the Foundation remained a major sponsor of the Vincent HoSang UWI Venture Competition, providing financial assistance to the top teams, which allows them to transition their business ideas into viable businesses. Also, a Corporate Social Responsibility (CSR) prize is awarded in order to embed CSR in each entrant's business model. This year's competition had 22 entrants with business models focused on digital transformation, a fitting theme given our current environment.

In keeping with the true spirit of Christmas, the Foundation through the JMMB Group's "Share the Love" initiative, partnered with three charities to spread Christmas cheer to over 1000 individuals including the elderly, inner city children as well as homeless and indigent individuals. Further, the Foundation led a #CanYouPIF social media campaign to encourage a ripple effect of kindness and love across communities and the country.

In the **Dominican Republic**, the team remained committed to supporting the welfare and nutritional needs of needy individuals, as well as to providing financial backing for community outreach initiatives. The JMMB team partnered with an outreach organization in order to improve the quality of life, provide hope and share Christmas cheer with the elderly in three nursing homes and a geriatric residence. As such, the JMMB team donated medical and food supplies and much-needed household supplies and appliances.

In **Trinidad & Tobago**, the team spearheaded initiatives to continue supporting the less fortunate and vulnerable groups across various communities. As such the JMMB team partnered with the Rotary Club of Maracas to provide wheel chairs for disabled members of the community. Additionally, the JMMB team donated Amazon Fire tablets to the Mon Repo Community Police outreach as well as to children from Tableland and Cunupia areas. This ensured that these students are able to participate in online classroom activities, which has become a part of the 'new norm' due to COVID-19. This effort will also help to promote greater inclusivity in the education sector and bridge the digital device by providing needy children with equitable access to ICT.

Notes to the Financial Statements

Nine-month period ended 31 December 2020

(Expressed in Jamaican dollars unless otherwise indicated)

2. Summary of Significant Accounting Policies

(a) Basis of preparation

The Group's condensed consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS). The condensed consolidated financial statements should be read in conjunction with the accounting policies as set out in Notes 2 and 36 of the audited financial statements for the year ended 31 March 2020.

All amounts are stated in Jamaican dollars unless otherwise indicated.

Amendment to IAS 1, *Presentation of Financial Statements* and IAS 8, *Accounting Policies, Changes in Accounting Estimates and Errors* is effective for annual periods beginning on or after January 1, 2020, and provides the following definition of 'material' to guide preparers of financial statements in making judgements about information to be included in financial statements.

"Information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements, which provide financial information about a specific reporting entity."

The Group does not expect the amendment to have a significant impact on its financial statements.

(b) Basis of consolidation

The consolidated financial statements include the assets, liabilities and results of operations of the Company and its subsidiaries presented as a single economic entity.

Subsidiaries are all entities over which the Company has the power to govern the financial and operating policies, generally accompanying a shareholding of more than one half of the voting rights of an investee, where there is exposure to variability of returns and the Company can use its power to influence the returns. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Company controls another entity. Subsidiaries are consolidated from the date on which control is transferred to the Group. They are no longer consolidated from the date that control ceases.

Intra-group transactions, balances and unrealised gains on transactions between Group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of impairment of the asset transferred. Accounting policies of the subsidiaries are consistent with those of the Group.

The Group uses the acquisition method of accounting for business combinations. The cost of acquisition is measured as the fair value of the assets given, equity instruments issued and liabilities incurred or assumed at the date of exchange. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured at their fair values at the acquisition date, irrespective of the extent of any non-controlling interest. The excess of the cost of acquisition over the fair value of the Group's share of the identifiable net assets acquired is recorded as goodwill. If the cost of acquisition is less than the fair value of the net assets of the subsidiary acquired, the difference is recognised directly in the consolidated profit and loss account.

Notes to the Financial Statements

Nine-month period ended 31 December 2020

(Expressed in Jamaican dollars unless otherwise indicated)

2. Summary of Significant Accounting Policies (continued)

The Group uses predecessor value (book value) method of accounting for business combinations with entities under common control. Any differences between the consideration paid and the net assets of the acquired entity is recognised in equity.

(i) Non-controlling interests

Non-controlling interests (NCI) are measured at their proportionate share of the acquiree's identifiable net assets at the acquisition date.

Changes in the Group's interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

(ii) Loss of control

When the Group loses control over a subsidiary, it derecognises the assets and liabilities of the subsidiary, and any related non-controlling interest (NCI) and other components of equity. Any resulting gain or loss is recognised in profit or loss. Any interest retained in the former subsidiary is measured at fair value.

(b) Interest in associated company

An associated company is an entity over which the Group has significant influence but not control, generally accompanying a shareholding between 20% and 50% of the voting rights. Investments in associates are accounted for by the equity method of accounting and are initially recognised at cost. The Group's investment in associated company includes goodwill (net of any accumulated impairment loss) identified on acquisition.

(c) Earnings per stock unit

Earnings per stock unit ("EPS") is computed by dividing profit attributable to the equity holders of the parent of J\$3,848,868,000 (2019 – J\$3,925,890,000) by the weighted average number of stock units in issue during the period, numbering 1,955,552,532 (2019 – 1,738,885,864).

(d) Managed funds

The Group acts as agent and earns fees for managing clients' funds on a non-recourse basis under a management agreement. At 31 December 2020, funds managed in this way amounted to J\$152,065,370,387 (2019 – J\$147,885,399,417).

(e) Comparative Information

Where necessary, comparative figures have been reclassified to conform to changes in presentation in the current period.
